

# OM PRAKASH BEHERA

SOFTWARE ENGINEER, DATA SCIENTIST

## OBJECTIVE

To secure a role that allows me to leverage my expertise in full-stack web development, utilizing modern frameworks and cloud services to build scalable and cost-efficient solutions. With a strong background in developing user-friendly interfaces, robust backend systems, and serverless architectures, I aim to contribute to innovative projects that drive digital transformation. My passion for delivering impactful solutions, coupled with effective communication and collaboration skills, will enable me to actively participate in the development process and create value for the organization.
